

REMARKS/ARGUMENTS

Applicants respectfully request entry of this Supplemental Amendment in which the specification has been amended to correct matters of form. Applicants respectfully submit that no new matter has been added.

With regard to the amendments set forth above in pages 23, 24, 25, 26 and 27, persons of ordinary skill in the art would recognize that the apostrophes being deleted are unnecessary in naming the compounds listed.

Persons of ordinary skill in the art would recognize that the corrected compound set forth in page 28 is correct in view of the heading of the chemical compound and the reaction process.

Persons of ordinary skill in the art would recognize that the corrected compounds in pages 29, 36 and 42 are correct in view of the headings of the chemical compounds, the initial chemical compounds and the reaction processes described.

Persons of ordinary skill in the art would recognize that in the corrected compounds on page 44, the parentheses are not needed.

Persons of ordinary skill in the art would recognize that the corrected compound on page 45 is the correct compound in view of the heading of the chemical compound, the reaction process and the NMR data.

Persons of ordinary skill in the art would recognize that the corrected compounds in pages 59, 60 and 61 are correct, in that the closing parenthesis should be located where it is shown in the amended compounds.

Persons of ordinary skill in the art would recognize that the corrected compounds in page 65 are correct in view of the heading of the chemical compounds, the reaction processes and the NMR data.

Persons of ordinary skill in the art would recognize that the corrected compounds listed in Table 21 on page 111 are the correct compounds in view of the intermediate compounds and the NMR data.
